Professional Experience

2 Years
30 Studies

Qualifications

- BSc Forensic science
- MCERTS Level 2, TE1 & TE3

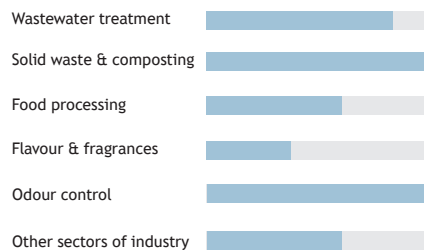

Odour Sampling Expert

Oliver has 2 years of experience in the area of stack gas sampling and reporting. He is also the Head of sampling, based in Bradford on Avon. Oliver has extensive experience in Odour Control Unit (OCU) testing, isokinetic sampling and knowledge of both the MCERTS and UKAS accreditation schemes for odour and bioaerosols. Oliver is great with logistics and problem solving, due to his highly analytical thinking.

Key Areas of Expertise

- Odour abatement and management techniques
- Sampling strategy development
- MCERTS sampling and reporting, inclusive of odour and isokinetic sampling methods
- Accreditation and quality relating to stack sampling
- Odour emissions sampling and testing
- Isokinetic sampling of gases and particulates
- Continuous monitoring techniques
- Sampling quality assurance and control
- Odour survey design

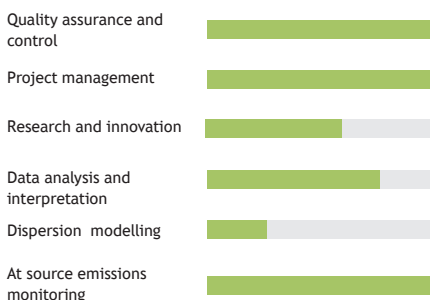

Key Industries

Languages

English

Key Skills

Experience and Project Examples

- Odour abatement system performance tests (various sectors), including commissioning testing, examples include the month long testing of two large London based OCUs and many similar across the UK
- Bioaerosol sampling to VDI 4257, examples include the SNIFFER research project (waste sector)
- MCERTS stack sampling of odour, bioaerosols, speciated VOCs, NH3 and particulates (various sectors)
- Field panels and off site assessments (waste sector)
- Odour emission testing of all sectors, with particular experience in wastewater
- Project management of numerous odour surveys
