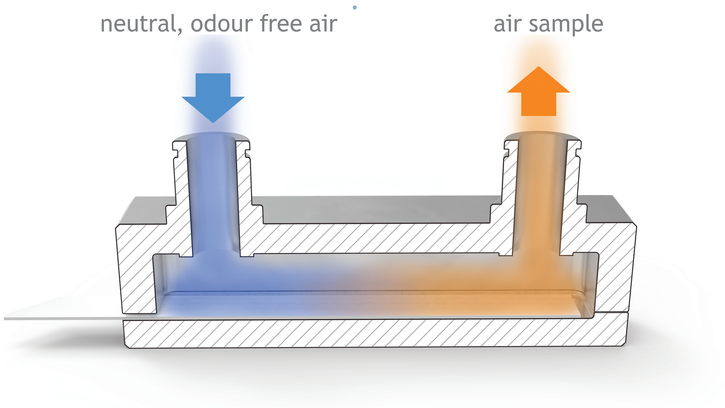
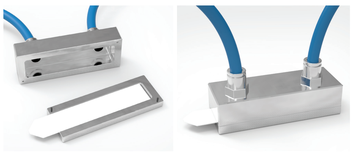
ODOURNET
sensory experts since 1980

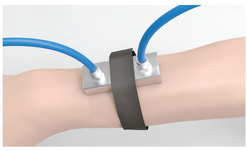
Scent Sampler
for Skin and other Surfaces



in-vitro testing
Take samples directly from surfaces (e.g. fragrance strip)



in-vivo testing
Take samples directly from the skin



Standardized sampling through:

- Temperature Control
- Humidity Control
- Air Flow Control

Use the analysis results for:

- Longevity testing
- Off odour identification
- Benchmark comparison
- Dynamic monitoring
- Quality control

sensory expertise delivered worldwide
