Professional Experience

3 Years

(2 in Odournet)

Education

- Chemical Degree- University of the Basque Country Universidad de País Vasco
- Analytical Master Degree- University of Barcelona
- Thermal Desorption techniques- Ingeniería Analítica
- Advanced Course in Gas Chromatography (GC) - Ingeniería Analítica
- Analysis of volatile compounds using gas chromatography - Ionic Mobility Spectrometry - University of Cordoba
- Chromatographic and related techniques - University of Barcelona
- Mass Spectrometry - University of Barcelona

Laboratory Manager

I am a chemist from the University of the Basque Country and I have a master's degree in Analytical Chemistry from the University of Barcelona. In collaboration with the University of Barcelona, I had the opportunity to publish an interesting article in an important scientific journal. I have focused my training on everything related to our company's laboratory in order to be able to offer the best possible service. In addition to my experience in ODOURNET and the experience in two of the main laboratories of the University of Barcelona, I was working in a multinational company.

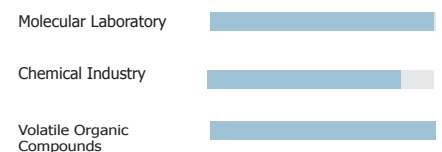

Key Areas of Expertise

- Laboratory Mangement (Molecular)
- Analisis Coordinator (Molecular)
- Sample analysis (Molecular)
- Data Processing and Delivery of Results
- Defense and explanation of results
- TD-GC-MS TOF
